Introduction

Welcome to the ninth edition of Total Compensation Solutions' (TCS) *Hospital Executive Compensation Report*. TCS has been publishing a not-for-profit compensation survey for over 20 years and during that time we observed that hospital executive compensation was atypical compared to the general not-for-profit sector. Therefore, in 2018, we developed a hospital executive compensation report using the format that we have developed for our not-for-profit clients. The *2026 Hospital Executive Compensation Report* gathers and reports compensation data on 35 executive, director-level and professional-level positions found in 1,144 hospitals.

TCS' *2026 Hospital Executive Compensation Report* is an essential resource for compensation decisions regarding hospital executive positions.

In this report, we looked at the various compensation elements reported in IRS Form 990: base salary, bonus, other income, retirement, non-taxable benefits and from those elements looked at total cash compensation (base salary plus annual bonus) and total remuneration (total cash compensation plus retirement, non-taxable benefits, and other income) for each job title.

TCS collects this data to capture a total rewards picture for hospital executives in the not-for-profit sector. We are confident that you will find this report to be a valuable resource for evaluating compensation in the competitive market for hospitals.

In this report, TCS reviews the compensation elements which are relevant to successful management of executive pay programs in hospitals. The elements that comprise Total Remuneration include:

- Base Salary
- Total Cash Compensation (Base Salary plus Bonus)
- Retirement
- Health and Welfare Benefits and
- Other Income

There are also significant differences in pay practices dependent upon two factors:

- Geographic location, and
- Revenue Size

Introduction - continued

This report provides information on the primary compensation elements listed above as well as the differentiating factors (geographic location and revenue). All these factors have an impact on compensation plans in hospitals and healthcare institutions. By completing this research and a study of the factors impacting compensation, TCS can assist hospitals and healthcare institutions reasonably justify their compensation policies and practices.

This survey is conducted using rigid standards and statistical methods developed by TCS. We gathered data using publicly filed documents and incorporated that information into the database with appropriate adjustments for effective date and job matching criteria.

TCS uses statistical process control for all our surveys. This is a process for compiling data, screening data, and preparing micro- and macro-reports that allow survey analysts to review single organization data for match quality and consistency of pay practices. It also allows analysts to compare all organizations' response on similar positions. The result is a comprehensive database which TCS uses to prepare the final survey report and ensure its accuracy.

2026 Hospital Executive Compensation Report

Introduction - continued

This report is divided into four sections as described below:

Section I	Executive Summary	Introduces the report and its overall objective which is to present an alternative source of data for not-for-profit hospitals, our methodology, hospital demographics and key findings.
Section II	Compensation Analysis	Reports compensation data effective as of <u>January 1, 2026</u> , for 35 report positions based on national, regional, and metropolitan geographic criteria, as well as revenue size groupings.
Section III	Geographic Breakdown	Defines the various geographic cuts used in this report: Regional and Cost of Labor Areas.
Section IV	Reference	Defines and explains terms used in this report and provides technical notes on report use.

TCS is pleased to present this report on compensation practices for the hospital industry. We believe that this report provides an accurate assessment of compensation practices among US hospitals.

If you have any questions on this report or would like to provide additional feedback on this report, please call (914) 255-8725 or email your questions to Tom Bailey tbailey@total-comp.com

2026 Hospital Executive Compensation Report

Geographic Breakdown

In this report, we provide geographic breakouts of the compensation data: by five regional cuts and by three cost of labor designations.

States Included in the Five Regional Cuts

Northeast	Southeast	North Central	S. Central/Mountain	Western
Connecticut	Alabama	Illinois	Arizona	Alaska
Delaware	Florida	Indiana	Arkansas	California
Maine	Georgia	Iowa	Colorado	Hawaii
Maryland	Kentucky	Kansas	Idaho	Nevada
Massachusetts	Mississippi	Michigan	Louisiana	Oregon
New Hampshire	North Carolina	Minnesota	Montana	Washington
New Jersey	South Carolina	Missouri	New Mexico	
New York	Tennessee	Nebraska	Oklahoma	
Pennsylvania	Virginia	North Dakota	Texas	
Rhode Island	West Virginia	Ohio	Utah	
Vermont		South Dakota	Wyoming	
Washington DC		Wisconsin		

Cost of Labor Cities

We report the compensation data by three costs of labor cuts:

1. High cost of labor cities are 110% and above of the national average.
2. Medium cost of labor cities are between 100% and 109.9% of the national average
3. Low cost of labor cities are below 100% of the national average.

The tables on the following pages list cities included in this report and where they fall within the cost of labor designations.
